Exposes "Gold Brick" Anderson Bill Which Deceives Railroads.

MANNINGTON RALL'

Makes Strong Plea for Protective Tariff When War Ends.

Showing the fallacy of President Wilson's claim that the nation had been kept from war by his policies, exposing the "gold brick" Adamson bill as not granting the eight-hour day desired by the railroaders, and em-phasizing the need of a substantial protective tariff to avert disaster to American industries when the crash which will follow the close of the war in Europe comes, Hon. Henry W. Temple in an able and eloquent address yesterday evening roused the Mannington voters who attended the rally, to enthusiastic applause.

The street in front of the Bartlett hotel, from which Congressman Temple spoke, was crowded with both Republicans and Democrats from Mannington and all parts of the county who were attracted by the prominence of the distinguished speaker. The Eiks band of Mannington rendered a concept before the meeting and Reconcert before the meeting and Re-publican Committeeman George W. Bowers, of Mannington, presided. Congressman Temple came to Fairmont today and visited at local headquar ters. Tonight he will go to Shinns ton to address a rally of Harrison

county voters. The failure of the President's policy the failure of the President's policy to keep the country from war was the first of the three points made by Mr. Temple concerning this he said:
"The vacilisting, uncertain, timid policies of President Wilson have done

more to plunge us into the dangers of war than all of the other difficulties that have arisen during the four years of his administration. Words carry little weight when the world learns that those words mean nothing. Scolding notes irritate more than firm, quiet

The speaker bitterly assailed the dministration for its policy toward Mexico which he summed up as a "de-termination to drive Huerta out even if the United States had to be involved

In exposing the failure of the Adamson bill to give the railroaders an eight-hour day after the expiration of the commissions 3 days he said:

"Whatever they have got in the eight-hour law—I think myself it's a gold brick—that is secured. Do either railroad employers or railroaders other labor men want the rest of the rogram? The President has warned us that the rest of the program must go through. I don't think you want enforcement of compulsory arbitration of the double type and when the real

sion that is sure to come after the European war is ended, Mr. Temple said further:

"Business is good, mills are running and factories are paying good wages. Actual war supply trade is small, 'tis true, but the bulk of our big trade with foreign countries now is due to the fact that foreign countries are not making those goods. When the war is over there will be an awful scramble in Europe to regain lost trade. The effect on the United States will

be very noticeable.
"If we need protection in normal times, we'll need it double when this war ends. The crash that follows the wars of 1792 to 1815 because we did act have a party in power that believed in protection principles of the Republican party to guard against it. We need Charles E. Hughes in the Pres-ident's chair and a Republican congress to support him. We ask you not only to support the presidential nominee but to do your part in giving us a Republican majority in the House and Senate.

Democrats in Doubt About Wisdom of Labor Boss' Activity.

Everything Being Sacrificed to the Cause of Cornwell.

BY CHARLES BROOKS SMITH WASHINGTON, D. C., Oct. 5 .- Uness present plans miscarry, President Wilson is going to make a speech in West Virginia. His side partner in the deal to hook the labor vote, Sam Gompers, is also going to invade West Virginia along about a week after next. If the plans miscarry as to Gompers, it will be because those who are in charge of the Demicratic camare in charge o paign in West Virginia will have de-cided that it is best to keep Gompers out. They are massaging their minds

with that question now.

When and where Wilson will speak in West Virginia is yet to be determined. Letters were sent out today to each of the 1238 members of the Hughes Republican club of Fairmont formally notifying them of the meeting to be called for Saturday night of this week. The work of keeping in touch with the entire membership of the club has proved more than the officers can do and it is planned to appoint several committees at the Saturday meeting to assist in carrying out the plans of the club.

The consent of the Democratic National committee to stage a Wilson speech in West Virginia was secured by the campaign managers in the state upon their representing that Gov ernor Hughes was billed to make a day's tour of the state, and that Colonel Roosevelt would follow Hughes soon thereafter. It was also repre-sented with great emphasis to the national managers that Wilson has more than a fighting chance to capture the electoral votes of the state. This representation does not accord with the opinion of these gentlemen when privately expressed to friends, but they had to make that argument strong. What is behind it, of course, is the What is behind it, of course, is the expectation that a speech from Wilson in West Virginia will accrue to the benefit of Mr. Watson's gubernatorial candidate, Mr. Cornwell. Everything is being turned to the account of Cornwell, is the understanding of the State colony of politicians in the Capital, even to getting the National committee to stop the Wilson special long enough in West Virginia to get a speech from the President.
